

I strongly urge you to allow time to have a democratic debate about its consequences. The FCC has not allowed any meaningful debate of this extremely important issue, and appears to be pushing through a new set of rules that will severely harm the public's ability to receive meaningful news and information from independent media voices. Among other things, the FCC has refused to release the actual language of the proposed changes, Chairman Poweel has held only a single public meeting on this subject, and a bipartisan group of Senators' request for a delay to allow for meaningful public feedback has been brushed off.

Please allow a real public debate on an issue of such massive importance. Please do not allow a small group of media giants to dominate all forms of media in America.

Thank you.
